

MALAYSIA FESTIVAL SYDNEY
21 - 22 SEPTEMBER 2019 || TUMBALONG PARK, DARLING HARBOUR, SYDNEY, AUSTRALIA

**BEAUTIFUL TERENGGANU –
THERE'S MORE TO TERENGGANU THAN WHAT YOU KNOW**

A coastal state located on the East Coast of Peninsular Malaysia, Terengganu's bewildering natural charms and diverse landscape have since time immemorial provided the backdrop to its rich heritage. It offers pristine white sandy beaches dotted with swaying palms, and rustic fishing villages, spectacular lakes and waterfalls and picturesque islands. Straddling the ancient sea routes, the 244 km stretch of coastline overlooking the South China Sea has enticed merchants, traders and seafarers who have shaped Terengganu's cultural fabric and social landscape.

Lake Kenyir, the largest man-made lake with 340 islands and numerous waterfalls offers exhilarating outdoor adventures and haven for freshwater anglers. With its four island hopping attractions, waterpark, Kelah fish and elephant sanctuaries, Lake Kenyir will have the competitive edge as a preferred eco destination in the region. The lake offers the best of nature's exotic flora and fauna.

Pulau Perhentian, one of the emerald islands in Terengganu was voted by a CNN survey in 2013 as the 13th Best Beach in the World and was also chosen by Lonely Planet's 1,000 Ultimate Experiences survey as the 5th Best Beach to Swing the Hammock in 2010.

Terengganu has an abundance of appeals and attractions offering glimpses into its unique blend of local traditions, rich culture and heritage combined with serene nature and warm people. Its traditional food, some of them truly exotic, have brought travelers down a path of endless gastronomic adventures filled with an exciting array of flavors. Many of its dishes are a confluence of various ethnic groups in the region.

Terengganu is a land rich with events and festivals. Come over for a memorable holiday, evoke your senses, surely you'll find that there's more to Terengganu than what you know...
